B. No person shall hold himself out to be or advertise or permit to be advertised that such person is a dietitian or nutritionist unless such person:

1. Has (i) received a baccalaureate or higher degree in nutritional sciences, community nutrition, public health nutrition, food and nutrition, dietetics, or human nutrition from a regionally accredited college or university and (ii) satisfactorily completed a program of supervised clinical experience approved by the Commission on Dietetic Registration of the Academy of Nutrition and Dietetics;

6. ~~Has the minimum requisite education, training and experience determined by the Board of Health Professions appropriate for such person to hold himself out to be, or advertise or allow himself to be advertised as, a dietitian or nutritionist.~~

The restrictions of this section apply to the use of the terms "dietitian" and "nutritionist" as used alone or in any combination with the terms "licensed, " "certified, " or "registered, " as those terms also imply a minimum level of education, training and competence.

C. Any person who meets the requirements set forth in subsection B who receives nutritional genomics testing information shall maintain such information in accordance with applicable federal and state law.

D. Patient Care Disciplinary Case Processing Times (with Continuance Days): Quarterly Performance Measurement, Q2 2015 - Q2 2019

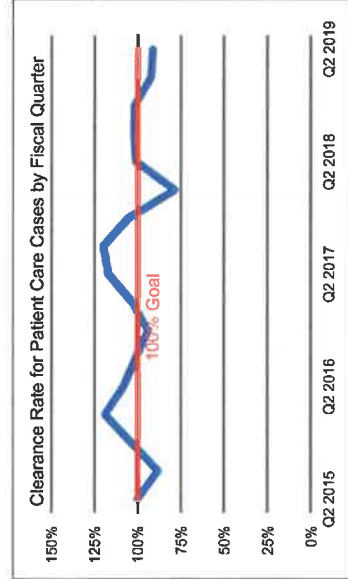

David E. Brown, D.C.
Director

"To ensure safe and competent patient care by licensing health professionals, enforcing standards of practice, and providing information to health care practitioners and the public."
DHP Mission Statement

In order to uphold its mission relating to discipline, DHP continually assesses and reports on performance. Extensive trend information is provided on the DHP website, in biennial reports, and, most recently, on Virginia Performs through Key Performance Measures (KPMs). KPMs offer a concise, balanced, and data-based way to measure disciplinary case processing. These three measures, taken together, enable staff to identify and focus on areas of greatest importance in managing the disciplinary caseload; Clearance Rate, Age of Pending Caseload and Time to Disposition uphold the objectives of the DHP mission statement. The following pages show the KPMs by board, listed in order by caseload volume; volume is defined as the number of cases received during the previous 4 quarters. In addition, readers should be aware that vertical scales on the line charts change, both across boards and measures, in order to accommodate varying degrees of data fluctuation. This report includes the number of days the case was in the continuance activity.

Clearance Rate - the number of closed cases as a percentage of the number of received cases. A 100% clearance rate means that the agency is closing the same number of cases as it receives each quarter. DHP's goal is to maintain a 100% clearance rate of allegations of misconduct.

The current quarter's clearance rate is 91%, with 1080 patient care cases received and 983 closed.

Age of Pending Caseload - the percent of open patient care cases over 250 business days old. This measure tracks the backlog of patient care cases older than 250 business days to aid management in providing specific closure targets. The goal is to maintain the percentage of open patient care cases older than 250 business days at no more than 20%.

The current quarter shows 17% patient care cases pending over 250 business days with 3005 patient care cases pending and 497 pending over 250 business days.

Note: This measure may be off 1%-2% in Q4 2018

Time to Disposition - the percent of patient care cases closed within 250 business days for cases received within the preceding eight quarters. This moving eight-quarter window approach captures the vast majority of cases closed in a given quarter and effectively removes any undue influence of the oldest cases on the measure. The goal is to resolve 90% of patient care cases within 250 business days.

The current quarter shows 81% of patient care cases being resolved within 250 business days with 967 cases closed and closed within 250 business days.
