A state examination would be acceptable only if another U S. jurisdiction did not require the national examination at the time the social worker was initially licensed and if the examination was deemed to be a comparable level for the license being sought.* There were no public comments provided on the proposed amendments.

Motion: Ms. Clancy made a motion, which Ms. Reynolds properly seconded, to accept evidence that a national examination was not required for licensure by the other jurisdiction at the time the applicant was initially licensed. The motion passed unanimously.

1. Be able to justify all services rendered to or on behalf of clients as necessary for diagnostic or therapeutic purposes.
2. Provide for continuation of care when services must be interrupted or terminated.

6. Ensure that clients are aware of fees and billing arrangements before rendering services.
7. Inform clients of potential risks and benefits of services and the limitations on confidentiality and ensure that clients have provided informed written consent to treatment.

8. Keep confidential their therapeutic relationships with clients and disclose client records to others only with written consent of the client, with the following exceptions: (i) when the client is a danger to self or others; or (ii) as required by law.

9. When advertising their services to the public, ensure that such advertising is neither fraudulent nor misleading.

10. As treatment requires and with the written consent of the client, collaborate with other health or mental health providers concurrently providing services to the client.

2. Maintain client records securely, inform all employees of the requirements of confidentiality, and provide for the destruction of records that are no longer useful in a manner that ensures client confidentiality.

3. Disclose or release records to others only with clients' expressed written consent or that of their legally authorized representative or as mandated by law.
4. Ensure confidentiality in the usage of client records and clinical materials by obtaining informed consent from clients or their legally authorized representative before (i) videotaping, (ii) audio recording, (iii) permitting third-party observation, or (iv) using identifiable client records and clinical materials in teaching, writing, or public presentations.
5. Maintain client records for a minimum of six years or as otherwise required by law from the date of termination of the therapeutic relationship with the following exceptions:

(Examples of such a relationship include familial, social, financial, business, bartering, or a close personal relationship with a client or supervisee.) Social workers shall take appropriate professional precautions when a dual relationship cannot be avoided, such as informed consent, consultation, supervision, and documentation to ensure that judgment is not impaired and no exploitation occurs.
2. Not have any type of romantic relationship or sexual intimacies with a client or those included in collateral therapeutic services, and not provide services to those persons with

A client's consent to, initiation of, or participation in sexual behavior or involvement with a social worker does not change the nature of the conduct nor lift the regulatory prohibition.

3. Not engage in any romantic or sexual relationship or establish a therapeutic relationship with a current supervisee or student. Social workers shall avoid any nonsexual dual relationship with a supervisee or student in which there is a risk of exploitation or potential harm to the supervisee or student, or the potential for interference with the supervisor's professional judgment.

4. Recognize conflicts of interest and inform all parties of the nature and directions of loyalties and responsibilities involved.

Project 6721 - Proposed

Board of Social Work

Reduction in CE hours for continuation of approval to be a supervisor

18VAC140-20-50. Experience requirements for a licensed clinical social worker.

A. Supervised experience. Supervised post-master's degree experience without prior written board approval will not be accepted toward licensure, except supervision obtained in another United States jurisdiction may be accepted if it met the requirements of that jurisdiction. Prior to registration for supervised experience, a person shall satisfactorily complete the educational requirements of 18VAC140-20-49.

1. Registration. An individual who proposes to obtain supervised post-master's degree experience in Virginia shall, prior to the onset of such supervision, or whenever there is an addition or change of a supervisor:

- a. Register on a form provided by the board;
- b. Submit a copy of a supervisory contract completed by the supervisor and the supervisee;
- c. Submit an official transcript documenting a graduate degree and clinical practicum as specified in 18VAC140-20-49; and
- d. Pay the registration of supervision fee set forth in 18VAC140-20-30.

2. Hours. The applicant shall have completed a minimum of 3,000 hours of supervised post-master's degree experience in the delivery of clinical social work services and in ancillary services that support such delivery. A minimum of one hour and a maximum of four hours of face-to-face supervision shall be provided per 40 hours of work experience for a total of at least 100 hours. No more than 50 of the 100 hours may be obtained in

group supervision, nor shall there be more than six persons being supervised in a group unless approved in advance by the board. The board may consider alternatives to face-to-face supervision if the applicant can demonstrate an undue burden due to hardship, disability, or geography.

a. Supervised experience shall be acquired in no less than two nor more than four consecutive years.

b. Supervisees shall obtain throughout their hours of supervision a minimum of 1,380 hours of supervised experience in face-to-face client contact in the delivery of clinical social work services. The remaining hours may be spent in ancillary services supporting the delivery of clinical social work services.

3. An individual who does not complete the supervision requirement after four consecutive years of supervised experience may request an extension of up to 12 months. The request for an extension shall include evidence that demonstrates extenuating circumstances that prevented completion of the supervised experience within four consecutive years.

B. Requirements for supervisors.

1. The supervisor shall hold an active, unrestricted license as a licensed clinical social worker in the jurisdiction in which the clinical services are being rendered with at least two years of post-licensure clinical social work experience. The board may consider supervisors with commensurate qualifications if the applicant can demonstrate an undue burden due to geography or disability or if supervision was obtained in another United States jurisdiction.

2. The supervisor shall have received professional training in supervision, consisting of a three credit-hour graduate course in supervision or at least 14 hours of continuing education offered by a provider approved under 18VAC140-20-105. ~~The~~ After the initial

graduate course or 14 hours of continuing education in supervision, at least seven hours of continuing education in supervision shall be obtained by a supervisor within five years immediately preceding registration of supervision.

3. The supervisor shall not provide supervision for a family member or provide supervision for anyone with whom he has a dual relationship.

4. The board may consider supervisors from jurisdictions outside of Virginia who provided clinical social work supervision if they have commensurate qualifications but were either (i) not licensed because their jurisdiction did not require licensure or (ii) ~~were~~ not designated as clinical social workers because the jurisdiction did not require such designation.
