Meeting Overview

Stakeholders conducted a comparative review of proposed changes to the Statewide Fire Prevention Code. The comparison was largely based on the document under development by the Virginia Fire Services Board, Codes and Standards Committee, and the document previously developed by the Board of Housing and Community Development’s Fire Code Edit workgroup. The stakeholders discussed various proposals, moving them forward from the workgroup as either consensus or non-consensus items; these items will be presented to the Board of Housing and Community Development for their consideration. Some items were revisited from previous meetings.

The following chapters of the Statewide Fire Prevention Code were discussed:

Chapter 3: General Requirements	Section 315.3.4
Chapter 5: Fire Service Features	Sections 508.1-508.1.5.
Chapter 6: Building Services and Systems	Sections 603.1-603.1.7, 606.12.3, 609.1 & 609.2
Chapter 8: Interior Finish, Decorative Materials & Furnishings	Sections 803 & 804 in their entirety
Chapter 9: Fire Protection Systems	Sections 901.5.1 & 907.2.12

Chapter 10: Means of Egress Sections 1001.1-1003.7; 1032 in its entirety
