Public Comment on behalf of American Fire Sprinkler Association by Timothy Loscomb – July 8th 2020

Re: Regulatory Review - Removal of "Inspector" from Sprinkler Regulations (Further Information)

Dear Sirs,

On behalf of the Virginia Chapter of the American Fire Sprinkler Association, I would like to thank you for the opportunity to allow our chapter to speak on this item during the June 23rd Board Meeting. We appreciate the commentary you all provided during the board meeting concerning our perception of this change to the regulations.

Regarding the removal of the term "Inspector" from the Sprinkler Contractor Regulations, we are asking that you provide us with the name of the individual(s) or contractor entity that has proposed this change.

Our chapter/association makes up roughly 90% of all Fire sprinkler contractors in the State of Virginia. To our knowledge, there was virtually no opposition by our state contractors, to the new Inspector Licensing regulations, based on the passing of SB #1774 through the legislative process. If you can provide us with the information on where this recommendation came from, it would give us as a chapter the ability to contact the individual(s), and provide some education as to why the Inspector qualifications and Contractor licensing is so important to saving lives and property in the Commonwealth of Virginia. Having the proper qualifications and training for persons working within fire sprinkler systems is also very important to our industry.

Once again, the position of the Virginia Chapter of the AFSA, including its sprinkler contractor members, manufacturer associates, design firms, and auxiliary fire services associates, is that we believe an individual who is to perform inspections on fire sprinkler systems in the State of Virginia, they must be required to prove competency for licensing, by testing and training, and be included under the umbrella of a State Licensed Fire Sprinkler contractor, and also be governed by the contract licensing requirements of this state. This shall be regulated through the already in place Tradesman program, within the state's DPOR guidelines.

Additionally, if our association can be of any further assistance in the startup process of this regulation, please let us know how. If you have any questions or comments pertaining to this item, or there is any additional information you feel we are lacking, please feel free to contact myself, or George Wagner with the Virginia Chapter AFSA.

Thank you for your time and consideration of this regulation.

Public Comment on behalf of American Fire Sprinkler Association by Timothy Loscomb – September 8, 2020

Re: Regulatory Review - Removal of "Inspector" from Sprinkler Regulations (Additional Information)

Dear Sirs,

I am writing this letter to request additional information concerning the Board's discussion of the removal of the term "Inspector" from the Sprinkler Contractor Regulations. Our association previously requested information on who the individuals were that asked for the regulatory wording changes. This request was made by formal letter dated July 8th, 2020. As per FOIA requirements and this matter being of public record we feel there is obligation to provide this information. Our association has not received any feedback from this request.

Regarding the removal of the term "Inspector" from the Sprinkler Contractor Regulations, we are asking that you provide us with the name of the individual(s) or contractor entity that had proposed this change. We do not think that the request for change came from any of our chapter members. To our knowledge, there was virtually no opposition by our state contractors, to the new Inspector Licensing regulations, based on the passing of SB #1774 through the legislative process.

The reason this information is of interest to our association is because we would like the opportunity to educate the entity on the importance of the Sprinkler Contractor regulations, and the added Inspector Licensing requirements in which the AFSA Virginia Chapter was part of the legislative process. Having the proper qualifications and training for persons working within fire sprinkler systems is also very important to our industry.

It was never our association's intention to create undue or excess regulation for fire sprinkler contractors to adhere to. This is a life safety issue period.

If our association can be of any further assistance in the startup process of this regulation, please let us know how. If you have any questions or comments pertaining to this item, or there is any additional information you feel we are lacking, please feel free to contact myself, or George Wagner with the Virginia Chapter AFSA.

Thank you for your help with providing this information.

Mr. Redifer made a motion seconded by Ms. King to refer the public comment on behalf of American Fire Sprinkler Association to the Board Committee for further review.

The motion was approved with a vote of 12-0-0. Ayes: Hux, King, Dyer, Oliver, Redifer, Ayres, Middleton, Groh, Johnson, Bynum-Coleman, O'Dell and Magruder. **Nays:** None **Abstain:** None **Absent:** Tomlin, Mitchell, and Plummer.

Removal of Formal Compliant

I, Andre Massenburg (Class "A" Contractor # 2705041392 of 1416 W. Clay Street Richmond, VA 23220) wish to espouse the only compliant on my record. It was ruled on in 1990 and I have responded and paid all fees. I have worked almost forty years in construction field and wish to have a clear record.

All conditions of the roofing repair complaint have been answered. The repairs completed, my fine and fees are satisfied have been filled.

I request this removal because of current bidding process, I feel some of the major contractors in city of Richmond have been reviewing my records and turn down sub-contracting approval because this issue is still recorded. This compliant is over twenty (20) years old. This I feel has impacted some decisions on opportunities offerings of contracts. A negative compliant twenty years ago without a compliant before nor afterward, warrants my request.

Please consider this request. A notification of its removal and a return letter of your decision is important for future bidding purpose.

Sincerely,

Andre Massenburg
Owner: A. Massenburg Inc.

Mary Broz-Vaughan, Director, addressed the Board that FOIA requires the information to remain available to the public for 50 years unless the regulant is found not in violation, at which point it will remain open to the public for 1 year.

b) Ross Bailey – Request for HVAC exception

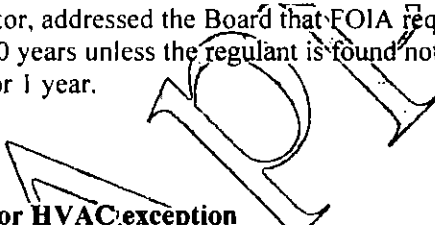

Mr. Bailey submitted a request to the Board to adopt a policy to allow his company, which is not currently licensed, to replace dryer vent covers on high-rise condominiums, which currently would require a license with the HVAC specialty. A subsequent email requested an exemption for window caulking and painting to also be included.

After discussion Mr. Redifer made a motion, seconded by Mr. Johnson to adopt the following policy:

The replacement of dryer vent covers does not meet the definition of contractor and no license is required to perform this task. This is restricted to the replacement only of existing dryer vent covers.

The request to exclude caulking and painting from the requirement of license was denied as it would require a change in the exemption provisions of the § 54.1-1101 of the Code of Virginia.

c) Regulatory Review

Regulatory Review

Mr. Olson, Executive Director informed the Board that the Worker misclassification prohibited act goes into effect on October 1, 2020.

Mary Broz-Vaughan, Director addressed the Board and informed that the Board for Professional and Occupational Regulation (BPOR) had scheduled public hearings around the Commonwealth of Virginia to receive comment on the need for continued regulation of backflow prevention device workers as recommended in the Joint Legislative Audit and Review Committee (JLARC) Report. Ms. Broz-Vaughan informed the Board that due to COVID-19 those public hearings were canceled. In order to provide the public the opportunity to render comments for the Board to consider, public comment will be received from 9/1/20-9/30/20 on the need for continued regulation of backflow prevention device workers.

h) Policy Interpretation – Commercial Buildings

Mr. Redifer informed the Board of a recommended policy change made by the Committee of the Board for Contractors on August 3, 2020 regarding a current commercial contractor exemption that required amending due to statutory changes to the exemptions.

Policy Interpretation – Commercial Buildings

After discussion Mr. Redifer made a motion, seconded by Mr. Johnson to adopt the following policy:

“For own use” means that the person performing or supervising the construction of a residential building must live in the residential building upon completion, unless they can be exempted based on the familial relationship as outlined in § 54.1-1101.8, and the person performing or supervising repair of or improvements to a commercial building must first occupy all or part of the building and operate their business from that occupancy. The Board stated that there should be no misunderstanding that a person who performs or supervises the construction of or improvements to any building with the intent to sell it must have a contractor's license.

The motion was approved with a vote of 11-0-0. Ayes: Hux, King, Dyer, Oliver, Redifer, Ayres, Middleton, Groh, Johnson, Mitchell, Bynum-Coleman, and O'Dell. **Nays:** None **Abstain:** None **Absent:** Tomlin, Mitchell, Magruder and Plummer.
