Substance

Please identify and explain the new substantive provisions, the substantive changes to existing sections, or both where appropriate. Please note that a more detailed discussion is required under the statement providing detail of the regulatory action's changes.

Proposed regulations, 18 VAC 41-40-10 et seq., contain provisions for the licensing of wax technicians under the Board for Barbers and Cosmetology as directed by Chapter 797 of the 2002 Acts of the Assembly. In addition to establishing the requirements for licensure, these regulations will ensure competency and integrity of all licensees, provide for, and ensure that health and sanitation standards are adequate in facilities where this service is provided.

These regulatory requirements include: 1) definitions of words and terms relative to the practice of providing waxing services that will ensure that licensees understand the scope and limitations of their profession; 2) general requirements for obtaining a license to provide services as a wax technician or a certification to be a wax technician instructor and licenses to operate a waxing salon or waxing school; 3) detailed curriculum and training requirements to include minimum clock hours acceptable to sit for the board approved written and practical examinations; 4) fees for initial, renewal, and reinstatement applications for wax technicians, wax technician instructors, waxing salons, and waxing schools; 5) sanitation and safety standards for salons and schools that address disinfection and storage of implements, sanitation of equipment, and safety standards pertaining to the use of chemical products, the proper handling of blood spills, and client health guidelines.

Issues

There are no disadvantages to the public or the Commonwealth with regards to regulations governing the licensure and practice of wax technicians.
