## Notice of Intended Regulatory Action (NOIRA) Agency Background Document

<b>Agency name</b>	Commonwealth Transportation Board
<b>Virginia Administrative Code (VAC) Chapter citation(s)</b>	24VAC30-61
<b>VAC Chapter title(s)</b>	Rules and Regulations Governing the Transportation of Hazardous Materials Through Bridge-Tunnel Facilities
<b>Action title</b>	Chapter 61 Regulatory Reform and Periodic Review
<b>Date this document prepared</b>	July 16, 2024

This information is required for executive branch review and the Virginia Registrar of Regulations, pursuant to the Virginia Administrative Process Act (APA), Executive Order 19 (2022) (EO 19), any instructions or procedures issued by the Office of Regulatory Management (ORM) or the Department of Planning and Budget (DPB) pursuant to EO 19, the Regulations for Filing and Publishing Agency Regulations (1 VAC 7-10), and the *Form and Style Requirements for the Virginia Register of Regulations and Virginia Administrative Code*.

### Brief Summary

*Provide a brief summary (preferably no more than 2 or 3 paragraphs) of the subject matter, intent, and goals of this regulatory change (i.e., new regulation, amendments to an existing regulation, or repeal of an existing regulation).*

The Commonwealth Transportation Board (CTB) is undertaking a comprehensive review of 24VAC30-61, Rules and Regulations Governing the Transportation of Hazardous Materials Through Bridge-Tunnel Facilities. This regulation establishes the rules by which transporters of hazardous materials are governed while traveling through state owned bridge-tunnel facilities. The intent of this action is to remove redundant or obsolete language and identify opportunities for regulatory reduction and streamlining in accordance with Governor Youngkin's Executive Order 19.

### Acronyms and Definitions

*Define all acronyms or technical definitions used in this form.*

CTB means the Commonwealth Transportation Board.

### Mandate and Impetus

*Identify the mandate for this regulatory change and any other impetus that specifically prompted its initiation, (e.g., new or modified mandate, petition for rulemaking, periodic review, or board decision). For purposes of executive branch review, "mandate" has the same meaning as defined in the ORM procedures, "a directive from the General Assembly, the federal government, or a court that requires that a regulation be promulgated, amended, or repealed in whole or part."*

---

On July 16, 2024, the CTB approved a Notice of Intended Regulatory Action to review 24VAC30-61 to potentially amend any overly burdensome requirements, remove any obsolete information, and provide more clarity with streamlined regulatory requirements. The CTB is conducting a review of its regulations in accordance with Governor Youngkin's Executive Order 19.

### Legal Basis

*Identify (1) the promulgating agency, and (2) the state and/or federal legal authority for the regulatory change, including the most relevant citations to the Code of Virginia and Acts of Assembly chapter number(s), if applicable. Your citation must include a specific provision, if any, authorizing the promulgating agency to regulate this specific subject or program, as well as a reference to the agency's overall regulatory authority.*

---

The Commonwealth Transportation Board is authorized to make regulations for the protection of and covering traffic on and for the use of systems of state highways pursuant to § 33.2-210 of the Code of Virginia, and that authority is extended to Interstate highways pursuant to § 33.2-300. 49 USC 5112 and 49 CFR Part 397 authorize each state to establish, maintain, and enforce designations of specific highway routes over which hazardous material may and may not be transported by motor vehicles and limitations and requirements related to highway routing.

### Purpose

*Describe the specific reasons why the agency has determined that this regulation is essential to protect the health, safety, or welfare of citizens. In addition, explain any potential issues that may need to be addressed as the regulation is developed.*

---

This regulation is necessary to protect the health, safety, and welfare of the traveling public. A hazardous material spill in a bridge-tunnel facility can be particularly difficult to respond to and clean and can cause significant damage, especially when the facility is in an urban area or near water. Potential issues that may be addressed as amendments are developed include removing overly burdensome requirements and obsolete information as well as providing more clarity to the regulation through streamlined text.

### Substance

*Briefly identify and explain the new substantive provisions that are being considered, the substantive changes to existing sections that are being considered, or both.*

---

Substantive changes to the regulation may be proposed if changes to the tables listing the categories of materials grouped under the designations “Prohibited,” “No Restrictions,” or “Restricted” in section 40 are determined to be warranted.

During its review of the regulation, the CTB is expected to consider the following topics:

1. Review to ensure the regulation comports with statute and applicable federal requirements.
2. Focus on making the regulation organized and clear.
3. Review for opportunities to reduce or alleviate regulatory burdens.

The above list is not inclusive of all items that may be considered. Draft regulatory text is not available at this time.

### **Alternatives to Regulation**

*Describe any viable alternatives to the regulatory change that were considered, and the rationale used by the agency to select the least burdensome or intrusive alternative that meets the essential purpose of the regulatory change. Also, include discussion of less intrusive or less costly alternatives for small businesses, as defined in § 2.2-4007.1 of the Code of Virginia, of achieving the purpose of the regulatory change.*

---

As a part of the CTB’s review, alternatives to the current regulatory text will be considered. The CTB will also consider the burden on individuals and small businesses for achieving the goals set forth by the regulation.

### **Periodic Review and Small Business Impact Review Announcement**

*If you wish to use this regulatory action to conduct, and this NOIRA to announce, a periodic review (pursuant to § 2.2-4017 of the Code of Virginia and the ORM procedures), and a small business impact review (§ 2.2-4007.1 of the Code of Virginia) of this regulation, keep the following text. Modify it as necessary for your agency. Otherwise, delete the paragraph below and insert “This NOIRA is not being used to announce a periodic review or a small business impact review.”*

In addition, pursuant to the ORM procedures and § 2.2-4007.1 of the *Code of Virginia*, the CTB is conducting a periodic review and small business impact review of this regulation to determine whether this regulation should be terminated, amended, or retained in its current form. Public comment is sought on the review of any issue relating to this regulation, including whether the regulation (i) is necessary for the protection of public health, safety, and welfare; (ii) minimizes the economic impact on small businesses consistent with the stated objectives of applicable law; and (iii) is clearly written and easily understandable.

### **Public Participation**

*Indicate how the public should contact the agency to submit comments on this regulation, and whether a public hearing will be held, by completing the text below. In addition, as required by § 2.2-4007.02 of the Code of Virginia, describe any other means that will be used to identify and notify interested parties and seek their input, such as regulatory advisory panels or general notices.*

---

The CTB is providing an opportunity for comments on this regulatory proposal, including but not limited to (i) the costs and benefits of the regulatory proposal, (ii) any alternative approaches, and (iii) the potential impacts of the regulation.

Anyone wishing to submit written comments for the public comment file may do so through the Public Comment Forums feature of the Virginia Regulatory Town Hall web site at: <https://townhall.virginia.gov>. Comments may also be submitted by mail, email or fax to Jo Anne Maxwell, Agency Regulatory Coordinator, 1401 E. Broad St. Richmond, VA 23219, telephone (804) 786-1830, fax (804) 225-4700, [JoAnne.Maxwell@VDOT.Virginia.gov](mailto:JoAnne.Maxwell@VDOT.Virginia.gov). In order to be considered, comments must be received by 11:59 pm on the last day of the public comment period.

A public hearing will not be held following the publication of the proposed stage of this regulatory action.
