Cost Benefit Analysis

Complete Tables 1a and 1b for all regulatory actions. You do not need to complete Table 1c if the regulatory action is required by state statute or federal statute or regulation and leaves no discretion in its implementation.

Table 1a should provide analysis for the regulatory approach you are taking. Table 1b should provide analysis for the approach of leaving the current regulations intact (i.e., no further change is implemented). Table 1c should provide analysis for at least one alternative approach. You should not limit yourself to one alternative, however, and can add additional charts as needed.

Report both direct and indirect costs and benefits that can be monetized in Boxes 1 and 2. Report direct and indirect costs and benefits that cannot be monetized in Box 4. See the ORM Regulatory Economic Analysis Manual for additional guidance.

Table 1a: Costs and Benefits of the Proposed Changes (Primary Option)

(1) Direct & Indirect Costs & Benefits (Monetized)	In 2021, DEA published a final rule allowing narcotic (opioid) treatment programs to operate a mobile component associated with a DEA-registered opioid treatment program without needing separate registration. Hampton Roads Clinic was recently approved to operate a mobile medication unit under the limited-use pharmacy permit issued to its opioid treatment program. Several waivers of regulation were necessary for compliance. Amending Guidance Document 110-6 will inform other opioid treatment programs of how to gain approval from the Board of Pharmacy to operate a mobile medication unit. This document has no direct or indirect costs or benefits.
