

Disclosure of Information to the Health Practitioners' Monitoring Program

Virginia Code § 54.1-2400.2(A)(6) permits disclosure of confidential information and records received and maintained by the Department of Health Professions ("DHP") or a regulatory board to the Health Practitioner's Monitoring Program ("HPMP") in connection with health practitioners who may apply to or participate in the program. DHP will provide information concerning a person's potential eligibility for acceptance in HPMP to facilitate the program's operation and mandate to assist impaired practitioners.

The Enforcement Division of DHP will provide investigative information to the HPMP Program Manager in accordance with Virginia Code § 54.1-2400.2 at the time that the investigative report is presented to the relevant board.

The HPMP Program Manager will send the investigative report summary via encrypted email to the HPMP contractor.

Whenever notice of any proceeding is issued which alleges that a practitioner may be impaired as defined in Virginia Code § 54.1-2515, a copy of that notice will be provided by the Executive Director or designee of the relevant regulatory board to the HPMP Program Manager. The HPMP Program Manager will send a copy to the HPMP contractor.

Any order, including consent orders, which makes a finding of impairment or any decision document issued subsequent to a notice described above will be transmitted by the Executive Director or designee of the relevant regulatory board to the HPMP Program Manager. The HPMP Program Manager will send a copy to the HPMP contractor.
