

**VOSH PROGRAM DIRECTIVE:** 12-257

**ISSUED:** 15 January 2015

**SUBJECT:** Vehicle-Mounted Elevating and Rotating Work Platforms, §1910.67

**Purpose** This Directive transmits to field personnel federal OSHA's correction to the standard for Vehicle-Mounted Elevating and Rotating Work Platforms.

*This Program Directive is an internal guideline, not a statutory or regulatory rule, and is intended to provide instructions to VOSH personnel regarding internal operation of the Virginia Occupational Safety and Health Program and is solely for the benefit of the program. This document is not subject to the Virginia Register Act or the Administrative Process Act; it does not have general application and is not being enforced as having the force of law.*

**Scope** This directive applies VOSH-wide.

**Reference** 79 FR 37189 (1 July 2014)

**Cancellation** None

**Effective Date** 15 February 2015

**Action** Directors and Managers shall ensure that VOSH personnel understand and enforce the requirements included in this Directive.

**Expiration Date** Not Applicable.

## **I. Background**

Federal OSHA corrected a typographical error in its standard on Vehicle-Mounted Elevating and Rotating Work Platforms in §1910.67 because the standard, as published, contained a title error.

On December 11, 2014, the Safety and Health Codes Board adopted federal OSHA's correction to the standard on Vehicle-Mounted Elevating and Rotating Work Platforms, §1910.67, with an effective date of February 15, 2015.

## **II. Summary**

Federal OSHA corrected non-substantive typographical errors in its standard for Vehicle-Mounted Elevating and Rotating Work Platforms, §1910.67. The typographical error corrected was in the title of a national consensus standards organization referenced in §1910.67(c)(5), which states that all welding done on vehicle-mounted elevating and rotating work platforms must conform to Automotive Welding Society Standards incorporated by reference in §1910.6. However, as §1910.6(i) specifies, the correct title of the organization is the American Welding Society Standards. In §1910.67(c)(5), federal OSHA replaced "Automotive" with "American". Section 1910.67 (c)(5) now reads: "*Welding standards. All welding shall conform to the following American Welding Society (AWS) Standards which are incorporated by reference as specified in §1910.6, as applicable:*"...
