Respond to the following questions:

1. What regulation are you petitioning the board to amend? Please state the title of the regulation and the section/sections you want the board to consider amending.

18VAC115-20-52. Residency requirements.

I would like to add a new rule listed in section 2

2. Please summarize the substance of the change you are requesting and state the rationale or purpose for the new or amended rule.

I would like to propose doctoral practicum and internship hours/supervision in a CACREP accredited Counseling program be accepted towards residency hours without preregistration of supervision up to 900 direct/indirect hours and up to 100 supervision hours if the professor or supervisor has an active LPC license and if the applicant can provide logs and verification of their supervisor's license when submitting for licensure. Based on the acceptance of hours in a master's program, a doctoral level program is post grad and provides more extensive clinical work, experience, and supervision. Doctoral Level Counseling Programs that adhere to the following CACREP guidelines are stricter than the Master's level program and are carefully overseen by licensed professors and supervisors with NCC and ACC credentials. Additionally, within the Master's level internship course, students are not obligated to register their supervisors and those hours are counted in excess of 600 hours up to 900 hours. With the increase of CACREP accredited doctoral counseling and counseling education programs in Virginia, this new rule would address the students' unique clinical experience and acknowledge their commitment to the counseling profession and community. Below I have included the CACREP guidelines for Doctoral level practicum and internship to provide a better understanding of the standards used in CACREP accredited doctoral programs.

DOCTORAL-LEVEL PRACTICUM AND INTERNSHIP

PRACTICUM

1. Doctoral students participate in a supervised doctoral-level counseling practicum of a minimum of 100 hours, of which 40 hours must be providing direct counseling services. The nature of doctoral-level practicum experience is to be determined in consultation with counselor education program faculty and/or a doctoral committee.
2. During the doctoral student's practicum, supervision is provided by a counselor education program faculty member or an individual with a graduate degree (preferably doctoral) in counseling or a related mental health profession with specialized expertise to advance the student's knowledge and skills.
3. Individuals serving as practicum supervisors have (1) relevant certifications and/or licenses, (2) knowledge of the program's expectations, requirements, and evaluation procedures for students, and (3) relevant training in counseling supervision.
4. Doctoral students participate in an average of one hour per week of individual and/or triadic supervision throughout the practicum. When individual/triadic supervision is provided by the counselor education program faculty, practicum courses should not exceed a 1:6 faculty-student ratio.
5. Group supervision is provided on a regular schedule with other students throughout the practicum and must be performed by a counselor education program faculty member. Group supervision of practicum students should not exceed a 1:12 faculty-student ratio.
6. Doctoral students are covered by individual professional counseling liability insurance policies while enrolled in practicum.

INTERNSHIP

7. Doctoral students are required to complete internships that total a minimum of 600 clock hours. The 600 hours must include supervised experiences in at least three of the five doctoral core areas (counseling, teaching, supervision, research and scholarship, leadership and advocacy). Doctoral students are covered by individual professional counseling liability insurance policies while enrolled in a counseling or supervision internship.
8. During internships, the student receives an average of one hour per week of individual and/or triadic supervision, performed by a supervisor with a doctorate in counselor education or an individual with a graduate degree and specialized expertise to advance the student's knowledge and skills.
9. Group supervision is provided on a regular schedule with other students throughout the internship and must be performed by a counselor education program faculty member.

3. State the legal authority of the board to take the action requested. In general, the legal authority for the adoption of regulations by the board is found in § 54-1-2400 of the Code of Virginia. If there is other legal authority for promulgation of a regulation, please provide that Code reference.

54-1-2400.1

The general powers and duties of health regulatory boards shall be:

1. To establish the qualifications for registration, certification, licensure or the issuance of a multi-state licensure privilege in accordance with the applicable law which are necessary to ensure competence and integrity to engage in the regulated professions.

Supervised Hours for CACREP Program

I support the petition for doctoral students in CACREP program to get licensed as a professional counselor in Virginia.

CACREP Supervisor Hours

We support the petition to accept the supervised hours of practicum and internship in a CACREP accredited doctoral program towards the required hours for the residency in counseling in the state of Virginia. We feel that it is wrong for the state to require students to spend additional funds when they have already created substantial debt to complete their education. Since these hours are acceptable from the CACREP Masters program, why is the government making it hard for qualified candidates to get their license?

I support this petition. Based on the board's acceptance of hours in a master's program, a doctoral level program is post grad and provides more extensive clinical work, experience, and supervision. Support Doctoral Students seeking their LPC

Doctoral students in doctoral level counseling programs receive extensive supervision and are challenged in all areas the VA Board of Counseling asks of master's level counseling programs. I believe it adds unnecessary debt to dismiss their supervised hours from their programs. I support the request to ask the VA Board of Counseling to accept residency and supervision hours from CACREP Doctoral Counseling programs.

Accept Doctoral Supervision Hours

Doctoral Level Counseling students deserve the acceptance of their practicum and internship hours. They work too hard to have their hours ignored and dismissed. Reconsider and create a set of standards that is focused on students in doctoral counseling programs.

Support practicum and internship hours from CACREP Doctoral programs for hours toward residency

I support this petition. Why is Virginia so difficult? You are losing many great counselors to Maryland and Virginia.

Change the rules

I write this on behalf of all doctoral students who are in counseling program and are trying to become licensed. Virginia's counseling rules and regulations have continued to create problems for residents. It seems silly that individuals who are focusing on becoming experts in the field's experience is not counted towards licensure. I don't believe members of the board truly understand how increasingly expensive higher educational programs have become along with paying outside supervisors. If the board accepted at least half of their hours it would reduce the amount of money that they have to pay while still challenging them to seek additional supervision once they complete their doctoral program. Individuals with doctorates sacrifice their time, money, and lives in the pursuit of advancing their clinical skills. Please consider accepting these hours for doc students.

Support of the Petition

I would like to support the proposed petition. The current guidelines and regulations do not address CACREP Doctoral practicum and internship hours/supervision. Doctoral practicum and internship hours/supervision in a CACREP accredited Doctoral Counseling programs should be accepted towards residency hours if the professor/supervisor has an active LPC license and meets the supervision training requirements outlined by the current regulations. This petition should be

approved based the VA Counseling Board's precious decision to accept clinical hours in a CACREP master's program and supervision. Doctoral Level Counseling Programs hours that adhere to the CACREP guidelines provide more extensive clinical work, experience, and supervision. Doctoral students in CACREP program are carefully overseen by licensed professors and supervisors with NCC and ACS credentials. Additionally, within the Master's level internship course, students are not obligated to register their supervisors and those hours are counted in excess of 600 hours up to 900 along with 20 hours of supervision. There continues to be an increase of CACREP accredited doctoral counseling and counseling education programs in Virginia. It is imperative that VA Counseling Board address the doctoral students' unique clinical experience and acknowledge their commitment to the counseling profession and community.

I would like to support the proposed rule change. The current guidelines fail to address how to evaluate CACREP doctoral hours. It is imperative the Virginia counseling board provide guidance to avoid possible discrimination among applicants.

This email are comments to be included in comments on the Petition for Rule-Making filed by Ms. D. Adkins.

I agree with the concept that doctoral-level practicum/internship hours should be permitted to count toward Residency hours. However, because the doctoral degree is not a requirement for licensure, I would not support a specific provision to be included in the rules/requirements for Residency. I would request that the Board permit these hours, under appropriate supervision, to count toward licensure.

Hello,

I support Ms. Adkins petition that supervised hours for doctoral internships count toward residency hours. The intensity of doctoral work, alongside the requirement that students do clinical work, complicates the possibility to acquire clinical hours outside of a doctoral program. These clinical hours are also supervised in such a careful way. So glad you are hearing this petition.

My response:

IF education meets course requirements, ok. Practicum hours good, if faculty meets criteria.

Apply for Residency and register supervision for licensure. The internship does not count, five areas, only one clinical, not sure meets other criteria, principle of registering before starting to accumulate hours, and Board approves.

To be treated as other Masters's level applicant.
